MANUFACTURER/DISTRIBUTOR LICENSE INFORMATION

PLEASE READ ALL OF THIS INFORMATION CAREFULLY BEFORE COMPLETING AND MAILING YOUR APPLICATION. INCOMPLETE OR INACCURATE INFORMATION MAY DELAY YOUR LICENSE.

BEGINNING SEPTEMBER 1, 2008 ALL NEW LICENSES WILL BE ISSUED FOR A TERM OF TWO YEARS.

A “**manufacturer**” is a person who manufactures or assembles new motor vehicles.

A “**distributor**” means a person, other than a manufacturer, who distributes or sells new motor vehicles to a franchised dealer.

Neither manufacturers nor distributors are allowed to sell new motor vehicles directly to Texas consumers, including municipalities. Only dealers that are franchised and licensed for the line-make of the manufactured or distributed vehicle are allowed to sell new motor vehicles to Texas consumers. If a new motor vehicle is sold through a **bid process**, a franchised dealer for the specific line-make **must** be listed on the bid as the seller.

Manufacturers and distributors are prohibited from, directly or indirectly:

- (1) owning an interest in a dealer or dealership;**
- (2) operating or controlling a dealer or dealership; or**
- (3) acting in the capacity of a dealer.**

For purposes of this prohibition, a “manufacturer” includes:

- (1) a representative; or
- (2) a person who (A) is affiliated with a manufacturer or representative; or (B) directly or indirectly through an intermediary, is controlled by, or is under common control with, a manufacturer. A person is controlled by a manufacturer if the manufacturer is directly or indirectly authorized, by law or by agreement of the parties, to direct or influence the person’s management and policies.

Exceptions to this prohibition are found at Texas Occupations Code § 2301.476.

If a person makes substantial modifications to a new motor vehicle and the resulting product is an **ambulance, fire-fighting vehicle, or motorhome**, as those terms are defined in Chapter 2301 of the Texas Occupations Code, then the person must obtain a manufacturer license, not a converter license. However, if even one of the conversions produced does not meet the exact definition of ambulance, fire-fighting vehicle, or motorhome, then a converter license, as well as a manufacturer license, is required.

Manufacturers/distributors are not required to be physically located in Texas. Even if the manufacturer/distributor is located in another state, as long as new motor vehicles they manufacture/distribute are sold in Texas, the proper license must be obtained from the Texas Motor Vehicle Board.
